

Inspire growth

Leaders in Education

28 January 2021

We believe our products can unlock the unique genius in every learner, so they can make a difference in their world.

Join us for the Leaders in Education 2021 virtual event, and discover how we can empower all learners for today and prepare them for tomorrow.

You'll hear directly from Education Leaders who have invested in Apple technology at all levels. They will be discussing their experiences in planning for successful large-scale technology deployments and sharing the impact it is having for teachers and students in and out of the classroom.

Register by January 26 to save your space.
